Flight	<p>Not part of the package.</p> <p>Announcement from Shanghai Airline:  <i>"The return date of 27 April is too near to 1 May Labour Day, which is a super peak period for China. The general rule of thumb, one week before and after 1 May and on 1 May, which is reflected in the seat availability system. Sub-economy seats are auto locked till high fare basis. Chances for group request is minimal to none unless passenger(s) are willing to offer higher level fare. You might wish to consider FIT basis – which we understand that your concern of the booking class being uneven moving up higher whereas group fare gives you the consistency of same level basis."</i></p> <p>Therefore, based on the above announcement, those interested to acquire flights, should immediately contact <b>Orex Travels and Tours</b> – MPMA's partner for Chinaplas.</p>
